

# Assessment Rationale for Year 13 A Level Computer Science 2021

This year students will receive grades awarded and determined by teachers, with students only assessed on what they have been taught and based on the standard at which they are performing.

Teachers have been asked to draw on a range of evidence when determining grades, including the optional use of questions provided by exam boards, as well as mock exams, coursework, or other work completed as part of a student's course, such as essays or in-class tests.
