

Yr 10 German Curriculum Summer 2021

Rationale:

This module starts abroad, covering types of holidays, holiday destinations and weather. It reuses key vocab and the structure um...zu which is developed to include other infinitive structures to express intent. A look at past holidays means lots of key past tenses practice. A cultural study of the island of Sylt looks at vocabulary for describing places and students focus on advantages/disadvantages to compare places and the conditional tense. There are opportunities to practise both the photo card and role play elements of the speaking exam. Preparation for the end of year exam is built into each week with vocabulary and grammar recap and then focused vocabulary and skills revision in the final weeks before the exams.
