

## Yr 8 German Curriculum Summer 2021

### Rationale:

This module focuses on expanding and practicing some of the most useful verbs with the popular topic of leisure. It reinforces both the present and conditional tenses (using *möchte*) of these verbs and introduces modals. It builds upon opinion vocab, followed by time phrases and frequencies to add detail to sentences. As a result, the word order of adverbs is taught implicitly and then explicitly including flipping - verb inversion. Finally, if time, we revisit the topic of where you live, adding types of houses and rooms.
