

Year Group: **10**

Subject: **Health and Social Care**

### **Key Learning Points**

Students will spend the first term completing their R022 coursework.

Students will work through the four learning objectives and complete the four required tasks to achieve a grading in this unit.

The four tasks that will be completed are:

1. Producing a written guide for care workers on positive communications methods
2. Explaining barriers to communication that care workers may come across and the ways these can be overcome
3. Researching qualities a care worker should possess and qualities that are specific to a job role
4. Demonstrating positive communication methods through a series of set tasks. Students will demonstrate a one to one roleplay and a group roleplay.

Assessment will take place with the overall grading of the coursework. Students work will be continually assessed and feedback given in order for improvements to be made.
