

Year Group: 9

Subject: **Health and Social Care**

### **Key Learning Points**

Students will spend the first half term working on an introduction to Health and Social Care, this is a general introduction to the subject and key words and terminology that will be referred to throughout KS4.

Students will:

- Understand the difference between a service user and a professional
- Understand the core skills required to work in Health and Social Care
- Know what makes excellent care
- Know what Health and Social Care provision is in the area

As part of their understanding students will research a variety of roles and career paths in Health and Social Care.

Assessment will take place using submitted classwork and end of learning objective tests.

**Students will spend the second half term working through and Introduction to Values of Care which will underpin the whole course and link to all other units.**

Students will:

- Understand the rights of individuals
- Understand the importance to maintain rights
- Know the values of care and how they are applied
- Understand what legislation is and how it can protect an individual
- Know how to identify concerns about a child
- Know the importance of personal hygiene and how to reduce infection
- Understand the safety and security measures that can be put in place to protect individuals or organisations

Assessment will take place using submitted classwork and end of learning objective tests.
