

June 25th is Year 11 Transition Day

Meet the Teachers

Get to know your tutor and teachers for next year. Getting an early insight into how they teach and what resources you will be using, will set you up nicely for September.

Experience timetabled lessons

Get a taste of how your timetabled lessons next year will be delivered and who your subject peers will be. Teachers will be using a really clear Programme of Study which will be shared with you at the beginning of Year 12.

Use the sixth form kitchen

Make yourselves a coffee or tea at breaktime and use the microwave/fridge if you've brought your own lunch - collect your lunch from the Community Lounge and bring it back to the common room or study room, though please no drinks on computer desks! :-)

Play pool in the breaks

Perhaps set up a pool tournament between yourselves or play cards in the break/lunchtime. Pool and cards can also be played in the VI Form when you are off timetable for P4 and 5. We do keep the common room quiet in the mornings during P1, 2 and 3 for independent study for those who don't have timetabled lessons.

Small Classes

Class sizes will be significantly smaller than you have been used to in the main school, so this should give you a really good taste of VI Form learning for the next 2 years.
